1. Background

The inspection work of Strategy and Performance Unit is carried out to support the Department of Foreign Affairs and Trade in the achievement of its High-level Goals as set out in its Statement of Strategy. Inspection visits consider how missions contribute to the High-level Goals and whether they have appropriate resources to achieve their objectives. Inspections involve discussions with external stakeholders to allow the inspection team to assess how the missions are fulfilling their mandate and to provide context for the local operating environment. All meetings with external stakeholders are held in confidence, any information shared by the external stakeholders is shared in confidence and this is explicitly made clear at the outset of every such meeting. Section 35 of the FoI Act (2014) refers.
