Convention on the Prohibition of the Development, Production and Stockpiling of Bacteriological (Biological) and Toxin Weapons and on their Destruction

Done at London, Moscow and Washington on 10 April 1972

Entered into force on 26 March 1975

Signed on behalf of Ireland on 10 April 1972

Ireland’s Instrument of Ratification deposited with the Government of the United Kingdom on 27 October 1972

Entered into force with respect to Ireland on 26 March 1975

Presented to Dáil Éireann by the Minister for Foreign Affairs
The States Parties to this Convention,

_Determined_ to act with a view to achieving effective progress towards general and complete disarmament, including the prohibition and elimination of all types of weapons of mass destruction, and convinced that the prohibition of the development, production and stockpiling of chemical and bacteriological (biological) weapons and their elimination, through effective measures, will facilitate the achievement of general and complete disarmament under strict and effective international control,

_Recognizing_ the important significance of the Protocol for the Prohibition of the Use in War of Asphyxiating, Poisonous or Other Gases, and of Bacteriological Methods of Warfare, signed at Geneva on June 17, 1925*, and conscious also of the contribution which the said Protocol has already made, and continues to make, to mitigating the horrors of war,

_Reaffirming_ their adherence to the principles and objectives of that Protocol and calling upon all States to comply strictly with them,

_Recalling_ that the General Assembly of the United Nations has repeatedly condemned all actions contrary to the principles and objectives of the Geneva Protocol of June 17, 1925,

_Desiring_ to contribute to the strengthening of confidence between peoples and the general improvement of the international atmosphere,

_Desiring_ also to contribute to the realization of the purposes and principles of the United Nations,

_Convinced_ of the importance and urgency of eliminating from the arsenals of States, through effective measures, such dangerous weapons of mass destruction as those using chemical or bacteriological (biological) agents,

_Recognizing_ that an agreement on the prohibition of bacteriological (biological) and toxin weapons represents a first possible step towards the achievement of agreement on effective measures also for the prohibition of the development, production and stockpiling of chemical weapons, and determined to continue negotiations to that end, Determined for the sake of all mankind, to exclude completely the possibility of bacteriological (biological) agents and toxins being used as weapons,

---

* Irish Treaty Series Nº 7 of 1930
Convinced that such use would be repugnant to the conscience of mankind and that no effort should be spared to minimize this risk,

HAVE AGREED as follows:

**Article I**

Each State Party to this Convention undertakes never in any circumstances to develop, produce, stockpile or otherwise acquire or retain:

(1) Microbial or other biological agents, or toxins whatever their origin or method of production, of types and in quantities that have no justification for prophylactic, protective or other peaceful purposes;

(2) Weapons, equipment or means of delivery designed to use such agents or toxins for hostile purposes or in armed conflict.

**Article II**

Each State Party to this Convention undertakes to destroy, or to divert to peaceful purposes, as soon as possible but not later than nine months after entry into force of the Convention, all agents, toxins, weapons, equipment and means of delivery specified in Article I of the Convention, which are in its possession or under its jurisdiction or control. In implementing the provisions of this Article all necessary safety precautions shall be observed to protect populations and the environment.

**Article III**

Each State Party to this Convention undertakes not to transfer to any recipient whatsoever, directly or indirectly, and not in any way to assist, encourage, or induce any State, group of States or international organizations to manufacture or otherwise acquire any of the agents, toxins, weapons, equipment or means of delivery specified in Article I of this Convention.

**Article IV**

Each State Party to this Convention shall, in accordance with its constitutional processes, take any necessary measures to prohibit and prevent the development, production, stockpiling, acquisition, or retention of the agents, toxins, weapons, equipment and means of delivery specified in Article I of the Convention, within the territory of such State, under its jurisdiction or under its control anywhere.
Article V

The States Parties to this Convention undertake to consult one another and to cooperate in solving any problems which may arise in relation to the objective of, or in the application of the provisions of, the Convention. Consultation and Cooperation pursuant to this Article may also be undertaken through appropriate international procedures within the framework of the United Nations and in accordance with its Charter.

Article VI

(1) Any State Party to this Convention which finds that any other State Party is acting in breach of obligations deriving from the provisions of the Convention may lodge a complaint with the Security Council of the United Nations. Such a complaint should include all possible evidence confirming its validity, as well as a request for its consideration by the Security Council.

(2) Each State Party to this Convention undertakes to cooperate in carrying out any investigation which the Security Council may initiate, in accordance with the provisions of the Charter of the United Nations, on the basis of the complaint received by the Council. The Security Council shall inform the States Parties to the Convention of the results of the investigation.

Article VII

Each State Party to this Convention undertakes to provide or support assistance, in accordance with the United Nations Charter, to any Party to the Convention which so requests, if the Security Council decides that such Party has been exposed to danger as a result of violation of the Convention.

Article VIII

Nothing in this Convention shall be interpreted as in any way limiting or detracting from the obligations assumed by any State under the Protocol for the Prohibition of the Use in War of Asphyxiating, Poisonous or Other Gases, and of Bacteriological Methods of Warfare, signed at Geneva on June 17, 1925.

Article IX

Each State Party to this Convention affirms the recognized objective of effective prohibition of chemical weapons and, to this end, undertakes to continue negotiations in good faith with a view to reaching early agreement on effective measures for the prohibition of their development, production and stockpiling and for their destruction, and on appropriate
measures concerning equipment and means of delivery specifically
designed for the production or use of chemical agents for weapons
purposes.

Article X

(1) The States Parties to this Convention undertake to facilitate, and
have the right to participate in, the fullest possible exchange of
equipment, materials and scientific and technological information for the
use of bacteriological (biological) agents and toxins for peaceful purposes.
Parties to the Convention in a position to do so shall also cooperate in
contributing individually or together with other States or international
organizations to the further development and application of scientific
discoveries in the field of bacteriology (biology) for prevention of disease, or
for other peaceful purposes.

(2) This Convention shall be implemented in a manner designed to
avoid hampering the economic or technological development of States
Parties to the Convention or international cooperation in the field of
peaceful bacteriological (biological) activities, including the international
exchange of bacteriological (biological) agents and toxins and equipment
for the processing, use or production of bacteriological (biological) agents
and toxins for peaceful purposes in accordance with the provisions of the
Convention.

Article XI

Any State Party may propose amendments to this Convention.
Amendments shall enter into force for each State Party accepting the
amendments upon their acceptance by a majority of the States Parties to
the Convention and thereafter for each remaining State Party on the date
of acceptance by it.

Article XII

Five years after the entry into force of this Convention, or earlier if it is
requested by a majority of Parties to the Convention by submitting a
proposal to this effect to the Depositary Governments, a conference of
States Parties to the Convention shall be held at Geneva, Switzerland, to
review the operation of the Convention, with a view to assuring that the
purposes of the preamble and the provisions of the Convention, including
the provisions concerning negotiations on chemical weapons, are being
realized. Such review shall take into account any new scientific and
technological developments relevant to the Convention.

Article XIII

(1) This Convention shall be of unlimited duration.
Each State Party to this Convention shall in exercising its national sovereignty have the right to withdraw from the Convention if it decides that extraordinary events, related to the subject matter of the Convention, have jeopardized the supreme interests of its country. It shall give notice of such withdrawal to all other States Parties to the Convention and to the United Nations Security Council three months in advance. Such notice shall include a statement of the extraordinary events it regards as having jeopardized its supreme interests.

Article XIV

(1) This Convention shall be open to all States for signature. Any State which does not sign the Convention before its entry into force in accordance with paragraph (3) of this Article may accede to it at any time.

(2) This Convention shall be subject to ratification by signatory States. Instruments of ratification and instruments of accession shall be deposited with the Governments of the United States of America, the United Kingdom of Great Britain and Northern Ireland and the Union of Soviet Socialist Republics, which are hereby designated the Depositary Governments.

(3) This Convention shall enter into force after the deposit of instruments of ratification by twenty-two Governments, including the Governments designated as Depositaries of the Convention.

(4) For States whose instruments of ratification or accession are deposited subsequent to the entry into force of this Convention, it shall enter into force on the date of the deposit of their instruments of ratification or accession.

(5) The Depositary Governments shall promptly inform all signatory and acceding States of the date of each signature, the date of deposit or each instrument of ratification or of accession and the date of entry into force of this Convention, and of the receipt of other notices.

(6) This Convention shall be registered by the Depositary Governments pursuant to Article 102 of the Charter of the United Nations.

Article XV

This Convention, the English, Russian, French, Spanish and Chinese texts of which are equally authentic, shall be deposited in the archives of the Depositary Governments. Duly certified copies of the Convention shall be transmitted by the Depositary Governments to the Governments of the signatory and acceding states.
IN WITNESS WHEREOF the undersigned, duly authorized, have signed this Convention.

DONE in triplicate, at the cities of Washington, London and Moscow, this tenth day of April, one thousand nine hundred and seventy-two.
“Declaration made upon signature on behalf of Ireland

“The accession on 29th August 1930 of the Government of the Irish Free State to the Protocol for the Prohibition of the Use in War of Asphyxiating, Poisonous or other Gases, and of Bacteriological Methods of Warfare, opened for signature at Geneva on 17 June 1925, was subject to the reservations that they did not intend to assume by this accession any obligation except towards States which had signed and ratified this Protocol or which would have finally acceded thereto, and that in the event of the armed forces of any enemy State or of any ally of such State failing to respect the said Protocol, the Government of the Irish Free State would cease to be bound by the said Protocol towards any such State.

The Government of Ireland recognise that the value of the Convention on the Prohibition of the Development Production and Stockpiling of Bacteriological (Biological) and Toxin Weapons and on their Destruction which has been signed on their behalf today, could be undermined if reservations made by Parties to the 1925 Geneva Protocol were allowed to stand as the prohibition of possession is incompatible with the right to retaliate. As this Convention purports to strengthen the Geneva Protocol, there should be an absolute and universal prohibition of the use of the weapons in question. The Government of Ireland, accordingly, have notified the depository Government for the 1925 Geneva Protocol of their withdrawal of their reservations to the Protocol. The withdrawal of these reservations applies to chemical as well as to bacteriological (biological) and toxin agents of warfare.”
