

IRELAND

HUNGARY

BUSINESS DIRECTORY

Hungary is one of the most buoyant and dynamic economies in Central Europe. It provides a gateway to Irish companies wishing to set up and take advantage of the growing economic opportunities available in Central, Eastern and South-Eastern Europe.

I am very pleased that trade between Ireland and Hungary has been growing so strongly in recent years, particularly in the services sector. Total two-way trade now exceeds €1.5 billion annually. Many Irish companies are located in Hungary and have been trading with great success.

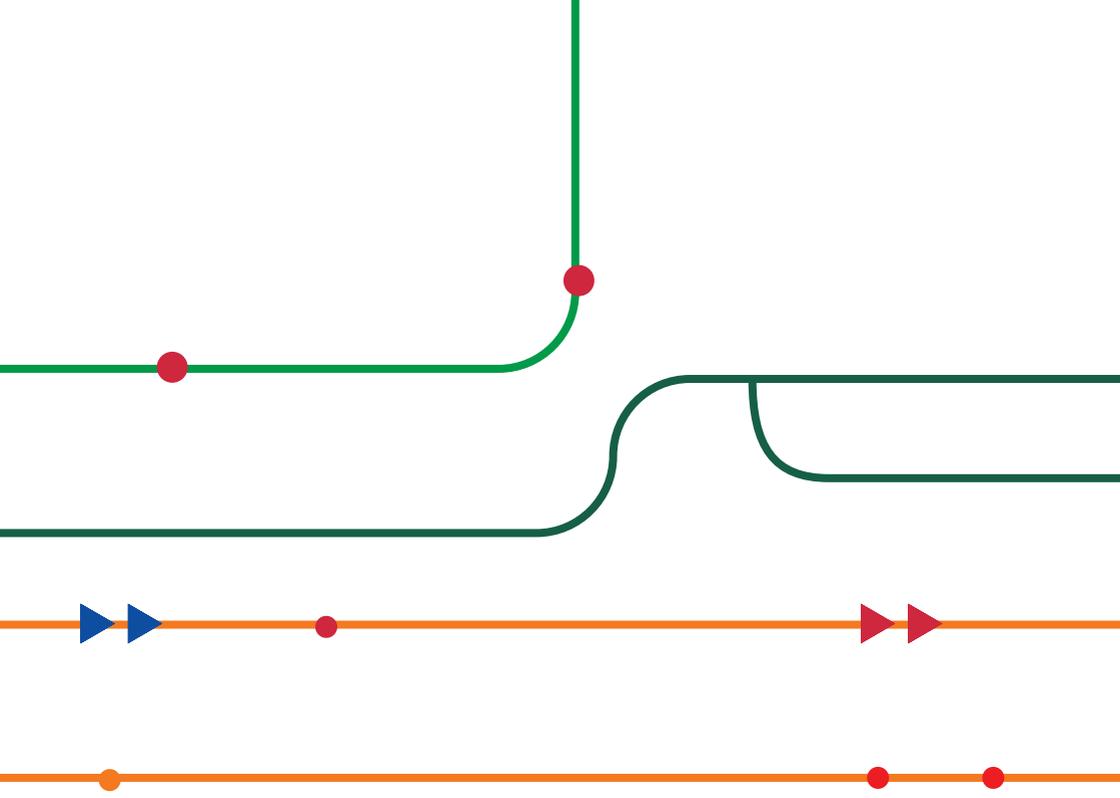

There are also increasingly important people-to-people links, with many young Irish people studying in Hungary, a large and active Hungarian community in Ireland, and growing tourist traffic between both countries. Fourteen direct flights per week between Dublin and Budapest will be enhanced when a direct Cork-Budapest flight starts in April 2019.

A core task of the Embassy is to support Irish business and help grow the Ireland-Hungary trade relationship. I am confident that this Irish-Hungarian Business Directory will prove a valuable resource to all those concerned with this relationship. Published for the first time in 2018, it provides an overview of the many businesses and entrepreneurs who make up the Irish economic presence in Hungary. I am confident that this Directory will help to illustrate both the strength of this presence as well as raise the overall profile of the Irish business community within Hungary.

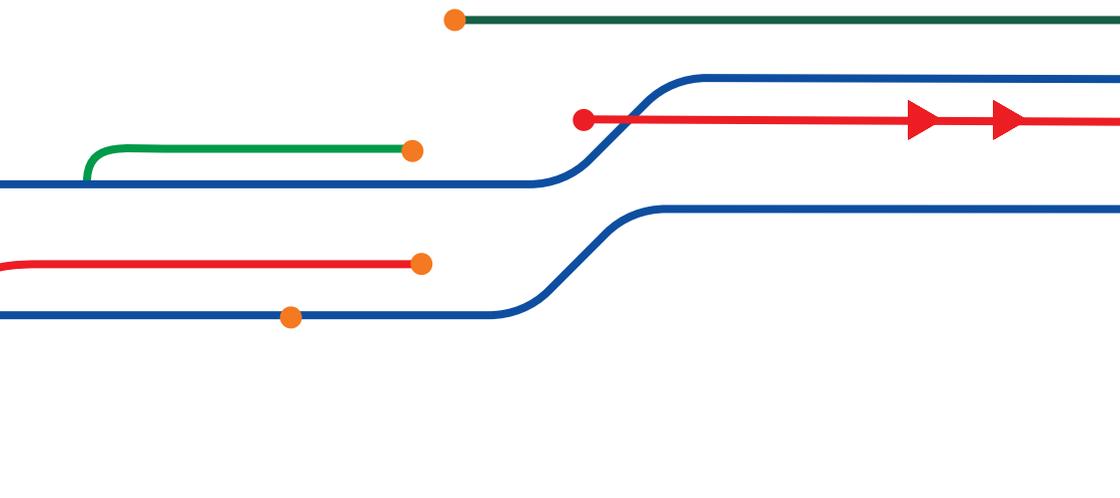

It has been a real pleasure for the Embassy to work alongside our partner agencies, Enterprise Ireland and Bord Bia, in helping to produce this Directory. It has been a real collaborative effort and I warmly thank all those Irish companies and entrepreneurs who supported this initiative. The result is I hope a resource which will prove invaluable for all those committed to the strengthening of the Irish-Hungarian economic relationship.

EMBASSY OF IRELAND

Relations between Ireland and Hungary are excellent. Ireland and Hungary work closely together as partners in the European Union, share interests in common, and enjoy growing economic, cultural, and people-to-people ties. There is a flourishing two-way trade relationship, worth €1.5 billion in 2017.

Located in Budapest, the mission of the Embassy of Ireland is to grow and deepen bilateral relations with Hungary in all areas, including economy and trade. The Embassy works closely with Enterprise Ireland, the agency responsible for the development and growth of Irish enterprises in world markets, and Bord Bia, the Irish Food Board. The Embassy collaborates with these and other Irish state agencies to promote Ireland's trade and investment objectives, promote Irish exports, food, culture, heritage and traditions. The Embassy cooperates with the agencies to support Irish companies looking to enter or expand in the Hungarian market, and to implement the Government of Ireland's strategy, Ireland Connected: Trading and Investing in a Dynamic World.

You can keep up to date on the activities of the Embassy on our website, by writing to budapestembassy@dfa.ie to ask to be added to our mailing list, or by following us on Twitter and Facebook.

BORD BIA

Bord Bia (The Irish Food Board) is the Irish government agency charged with the promotion, trade development and marketing of the Irish food, drink and horticulture industry. Bord Bia's mission is to drive through market insight and, in partnership with industry, the commercial success of a world class Irish food, drink and horticulture industry.

Bord Bia works in partnership with industry to increase the sales and exports of Irish food, drink and horticulture by developing long-term relationships between Irish companies and trade buyers. Bord Bia operates programmes to develop and foster contact between buyers and Irish companies, including participation at international trade exhibitions, and co-coordinating inward buying visits.

Bord Bia has its Head Office in Dublin and thirteen strategically located offices in key export markets. The offices are located in Amsterdam, Dubai, Frankfurt, London, Madrid, Milan, Moscow, New York, Paris, Singapore, Stockholm, Warsaw and Shanghai.

Bord Bia also coordinates national initiatives such as the Quality Assurance Schemes operating at farm and factory level and Origin Green, a sustainability programme for Ireland's food and drink industry.

IRISH-HUNGARIAN BUSINESS CIRCLE

The Irish – Hungarian Business Circle (IHBC) is a not-for-profit, member based, politically independent association established in 2005 to facilitate and develop business and social networks between Ireland and Hungary and within the Irish/Hungarian community as a whole. We have great ambitions. We are the hub for the Irish in Hungary and for Hungarians who are in any way involved with Ireland or the Irish. We can't realise this ambition without members...without you. Whether you're a CEO of a multinational, the owner of a small KFT, a freelance working on your own, a student here for the duration or a visitor on an extended holiday, you matter to us. One membership, one voice.

The image features a white background with several abstract, colorful lines and shapes. At the top, a green line starts from the left, moves horizontally, then curves upwards and to the right, ending with a red dot. Below this, a horizontal orange line spans the width of the page, featuring two blue triangles pointing right on the left side, a red dot in the middle, and two red triangles pointing right on the right side. Underneath the orange line, another horizontal orange line is shown with three orange dots: one on the left, one in the middle, and two on the right. The central focus is the text 'MARKET OVERVIEW' in a bold, dark green, italicized sans-serif font. Below the text, there are several more lines: a dark green line with an orange dot at its left end; a blue line with a red dot and three red triangles pointing right; a red line with an orange dot at its right end; and a blue line with an orange dot at its left end. The overall aesthetic is clean, modern, and data-oriented.

Open Economy

According to the KOF Index of Globalisation 2017 (www.kof.ethz.ch), which reflects the extent of economic, social and political globalisation, Hungary is the 10th most globalised country in the world. The World Bank Group's Doing Business 2018 reports that it takes only seven days to set up a company in Hungary.

Small Country with Global Investment

The data from the Hungarian Investment Promotion Agency (www.hipa.hu) shows that the stock of foreign direct investments in Hungary amounted to 66% of GDP in 2016, the highest ratio in the region. If you are selling to international customers, there is a high chance that some of them will have a substantial presence in Hungary.

High GDP Growth

Hungarian GDP increased by 4% in 2017 and OECD estimates the growth to continue by 4.3% in 2018 and 3.6% 2019. The growth is well balanced, driven by both investments and consumption. This favourable economic situation is reflected in growing exports and imports that provide a solid background for businesses trading with Hungary.

Supply Opportunities in Automotive and Electronics

Hungary has become a major manufacturing hub for automotive and electronics industries in Central Europe. The production value of the automotive industry amounted to €26.1 billion in 2017. According to a KPMG study, production in Hungary is estimated to grow with a compound annual growth rate of roughly 8% (2017-2024). Electronics Industry accounts for 20.8% of the total Hungarian manufacturing production.

EU Membership

Hungary joined the EU in 2004 and is part of the EU Single Market with no barriers to trade with other EU members. The country also benefits from inflow of EU structural funds and adopted EU rules and regulations. According to the European Payment Report 2018, the payment morale in Hungary is one of the best in Europe.

Easy Access

There are daily direct flights between Budapest and Dublin. A very good road and railway network plus an excellent public transport system can get you anywhere around Hungary when you come to visit your business partners. Time in Hungary is just one hour ahead of Ireland. .

Enterprise Ireland has regional offices in Hungary and the Czech Republic that assist and support

Irish company clients in exporting to the Hungarian market. Our Central European team in co-operation with market professionals in Enterprise Ireland's Market Research Centre provide a wide range of services including:

**FOR MORE INFORMATION
PLEASE CONTACT
ENTERPRISE IRELAND IN
BUDAPEST**
www.enterprise-ireland.com.

- market or sector-specific research,
- validation of the market opportunity for your product/service,
- an evaluation of your market entry strategy and suggested channels to market,
- competitor analysis,
- introductions to potential partners, buyers and decision makers,
- facilitation of business partner visits to Ireland,
- assistance with product launches/workshops.

In addition to these individual services, Enterprise Ireland organises an extensive programme of events to support your business abroad. These include:

- overseas trade missions,
- market study visits and knowledge events including seminars and workshops,
- group stands at important international trade fairs,
- networking events to build and enhance relationships with market contacts.

Business Environment in Hungary

As a member of the European Union, Hungary has fully harmonised its legal system with European law. New business associations are free to be established in the forms of:

- Limited Liability Company (Kft.)
- Company Limited by Shares which may be privately founded (Zrt.) or publicly founded (Nyrt.)
- Co-operative;
Limited Partnership (Bt.)
- General Partnership (Kkt.)
- Branch Office, Representative Office

SOURCE:

PWC Hungary,
www.pwc.com/hu/en

Taxation

In 2017 a flat corporate income tax rate replaced the former progressive system in Hungary: 9% corporate income tax and no withholding tax on payments (interest, dividend and royalty) made to foreign legal entities. Further main tax rates are:

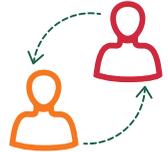

- 2% maximum local business tax;
- 0.3% innovation contribution;
- 27% general VAT rate;
- 18% is a reduced VAT rate for e.g. bread, milk, internet services and accommodation services;
- 5% is the reduced VAT rate for e.g. journals, books, medicines, chicken, pork and central heating;
- 0% means exemption for certain services.

WHY DO BUSINESS IN HUNGARY?

You can make the most of the foreign trade focused foreign policy of the Hungarian Government. Partnership with investors is a national priority in Hungary. Nearly 300 successful investment projects, more than 58,000 newly created jobs and approximately EUR 10 billion in investment volume between 2014 and 2017 managed by the Hungarian Investment Promotion Agency (HIPA) is a track record to build on.

You can benefit from the strategic geographic location and the highly developed logistics and telecoms infrastructure.

Laying at the crossroads of three TEN-T corridors, having the third highest road density in Europe, direct train connections to all significant harbours and terminals in Europe and the 5x Best Airport in the Eastern European region, Hungary is a true hub for logistics and transportation.

We can offer you incentives based on your needs. As the Hungarian economy has started to move from the "Made in Hungary" period towards the "Invented in Hungary" period, the taxation and incentive system related to R&D activities have been modified with the aim to make Hungary the innovation hub of CEE.

You can take advantage of the most competitive corporate income tax in the EU with 9% flat rate in Hungary, and the continuously decreasing taxes on employment.

You can rely on globally acknowledged human capital at a competitive cost. The combination of the world famous Hungarian creativity and the dual education system based on the German model is here for you.

You can count on Hungary's highly developed telecommunications system. Hungary has GSM 900/1,800 MHz mobile frequencies providing 100% physical coverage, and widespread 4G mobile coverage all over the country. Hungary is on the verge of 5G, as in connection with the vehicle test track in Zalaegerszeg, 5G services will be launched in pilot mode in the future.

According to the remarkable IBM Global Location Trends 2018 report, Hungary is one of the best countries for foreign direct investments (FDI). The 17,500 new jobs created in Hungary in 2017 is the 7th best result globally per one million inhabitants. Another important milestone is the number of the projects: the registered number of 121 new projects is a record for Hungary since IBM-PLI started monitoring these data in 2002.

Based on the Global Best to Invest 2018 report of the prestigious Site Selection magazine, Hungary was named as the best country for investment, and also achieved No. 1 ranking for investment volume per capita in the Eastern Europe & Central Asia region. In the same report, HIPA was awarded as the Best Investment Promotion Agency in Eastern Europe and Central Asia based on its survey with 1000+ participants.

HOW CAN HIPA SUPPORT YOUR INVESTMENT PROJECT?

BEFORE YOU MAKE A DECISION WE OFFER YOU...

...tailor-made incentive offers and information packages on the business environment, labour market, tax regulations, etc.

...one-stop-shop management consultancy services to address your business needs.

...reference visits at companies that are already established in Hungary.

...meetings with HR & real estate agencies, law firms and other consultants based on your needs.

...location search & evaluation + site visits.

...assistance with your incentive application.

AFTER YOU HAVE CHOSEN HUNGARY...

We are open to your feedback and offer mediation between government and business based on your inputs.

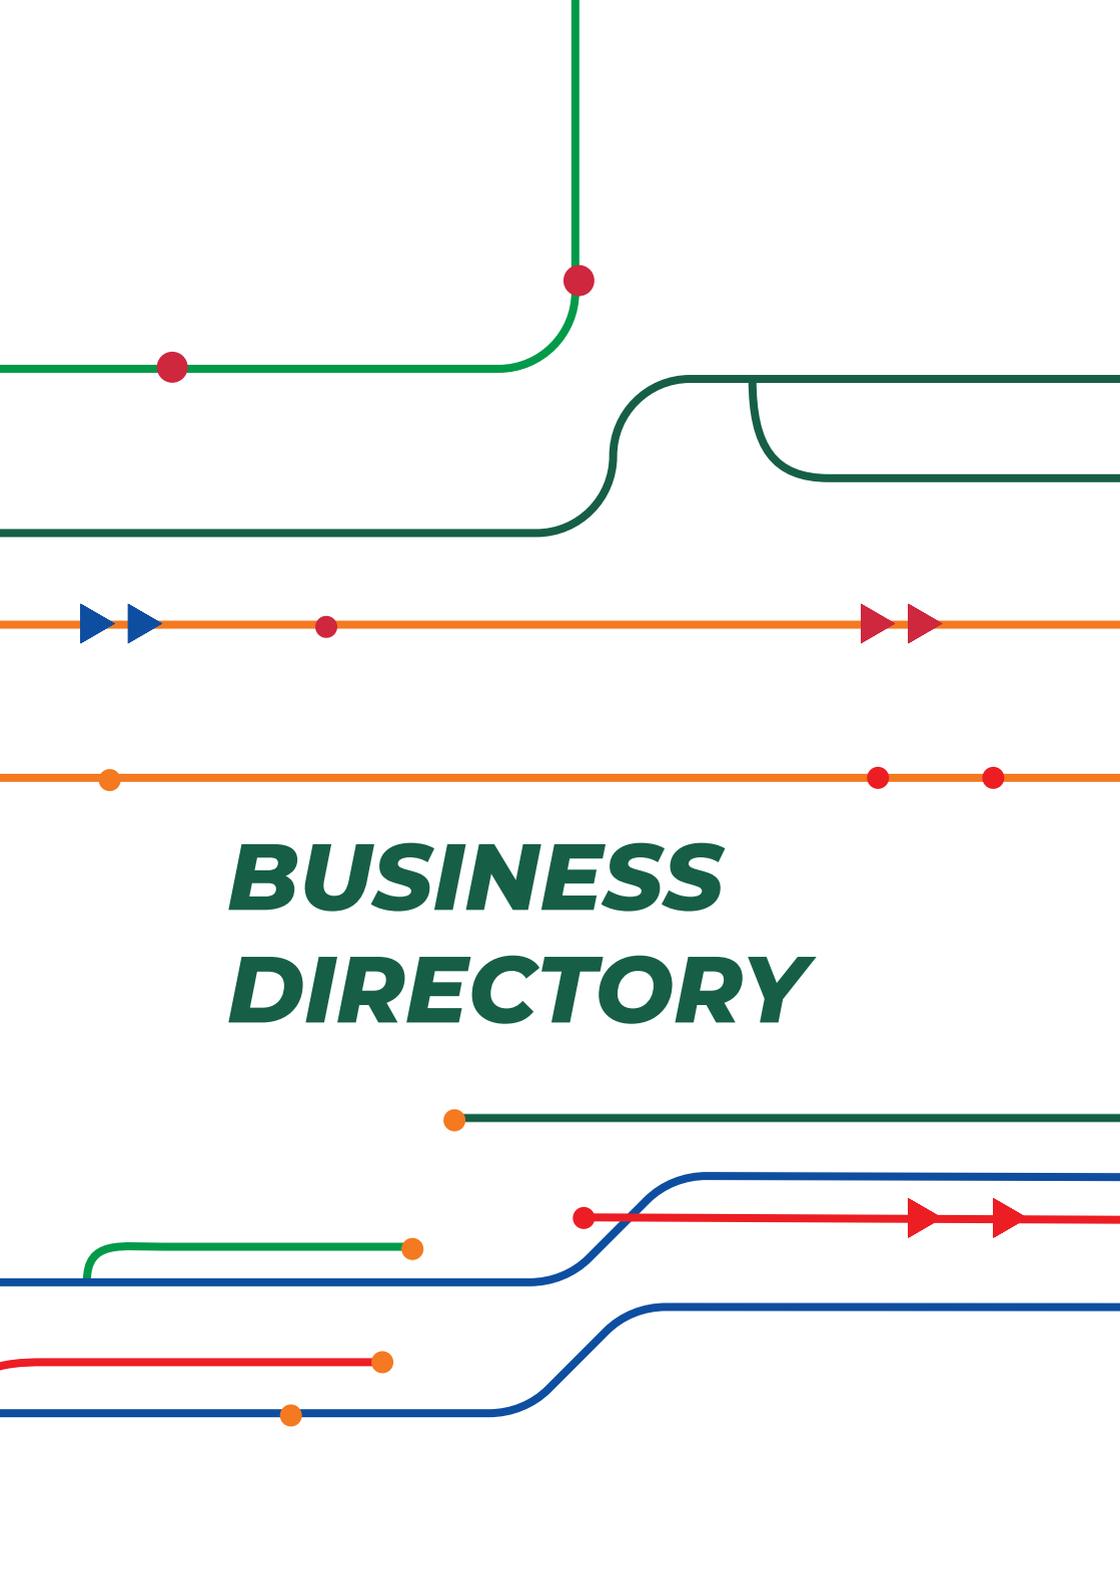

We support your further expansion and plans.

Operating under the supervision of the Ministry of Foreign Affairs and Trade, the Hungarian Investment Promotion Agency (HIPA) provides foreign investors with professional management consultancy services in a one-stop-shop service model, free of charge. HIPA prepares tailor-made incentive offers and information packages on the business environment, including labour market and taxation system, organises meetings with HR and real estate agencies, law firms or other consultants, based on the partner's needs. HIPA assists investors in location search and evaluation activities, organises site visits and reference visits at companies that are already established in Hungary.

ATOLL TECHNOLOGIES KFT.

atoll technologies

At Atoll Technologies Kft., we deliver agility into Digital Transformations. Our story began in 2001 when Atoll was created as the software subsidiary of a consulting firm. Through our experiences in numerous enterprise transformation initiatives, we realised that a clear architecture diagram can significantly improve decision making, in both speed and quality. During agile software developments, we observed that architecture planning is increasingly important to establish a common understanding. Therefore, we decided to create SAMU (System Architecture Management Utility) our Enterprise Architecture and Transformation tool, recognized by Gartner, to empower people to make the right decisions before and during transformation initiatives. Unique to the market, SAMU generates engaging and accurate visual diagrams about the changing architectural landscape and provides an easy-to-use toolset for transformation planning and impact analysis. Companies using SAMU can adapt more quickly to changes in the market, customer needs and technology advancements. The web-only, yet robust and flexible application is available either as an on premise software or as a cloud-based service.

BECKETTS IRISH BAR

Budapest's popular Irish pub, Becketts, first opened in 1994 and for 20 years, it was an important gathering place for local expats, tourists, sports fans and lovers of Guinness. Guests can sit on 3 floors, which have big-screen TVs and that typical Irish ambience. Many considered this pub their second home, and many friendships, marriages and businesses were born next to a pint of beer here.

Ó NÉILL MANAGEMENT SERVICES KFT.

Dónal Ó Néill is an executive coach and management trainer who heads his own management services company.

For the past fifteen years, he has been working in Hungary, mostly with senior executives of major multinationals. He was also a Visiting Lecturer at the International Business School in Budapest, where he taught management skills. He has extensive experience in change management having actively participated in the major reorganization of local authorities, and also was Chief Technical Advisor to the City of Dar es Salaam, Tanzania in their major change management programme, between 1998 and 2000.

In recent years an increasing amount of his time has been taken up with coaching those who have been displaced in the job market or are seeking new opportunities. .

EUROPA DESIGN

When founding Europa Design in 1994 we decided to establish the culture of European contract areas in Hungary. In cooperation with local architects and interior designers we target customers who believe in the value-adding impact of the built environment. As dealers of several world-class office and contract furniture producers we make their solutions more perceptible for the end-client by photorealistic 3D views. Our office audit service is meant to support the customer in identifying the problematic areas in his existing premises, and based on a precise system of principles it helps him to develop the new premises according to the modern workflow requirements. For the full comfort of our clients we offer 24h assembling service, moving, furniture renting and storage solutions, too.

While here he has worked as a consultant with Morgan Stanley and Computacenter. He is always looking for new opportunities

MILE LTD. ENGINEERING AND TRADING COMPANY

At the time of economic changes, back in 1989, the only trading company for electrical goods, was VILLÉRT, owned by the Hungarian State and later on was led to bankruptcy. Small companies and entrepreneurs (approximately 1000) tried to fill this gap.

In 1991 the "Mile Ltd. Engineering and Trading Company" was established and started to work in a Budapest downtown office with 4 people. At the beginning MILE's main activity was selling, commissioning and operating programmable controller systems based on former Klöckner Moeller (Eaton) devices.

The sales and distribution was started, based on mutual cooperation as well as good connections with manufacturers of the building sector. Our product portfolio was continuously increasing together with the number of business contacts with major industrial suppliers and leading investor and end-users. The high level of dedication, professionalism and short delivery time were our key advantages shaping extremely good customer relationships. Due to the above-mentioned facts the turnover of MILE Ltd was increasing steadily, so companies like Weidmüller, Danfoss, Honeywell, Abb, Siemens etc. became our key suppliers.

OPTIMA IMPLANT KÖZPONT KFT.

Our mission is to take care of the whole patient, to treat the individual, not only the teeth. Through this approach, we create a personal relationship with our clients, knowing their motivations and aims for choosing to take either a complete dental service or a solution to a specific problem.

Our team of dentists, technicians and patient support staff are all fluent in English and trained to the highest standards.

Optimadent's philosophy is simple: every patient deserves good dental health and treatment options they can choose from. We believe in tooth preservation and strive to ensure that even the most demanding treatments should be possible and pain-free.

The team's expertise in all aspects of Dentistry means that patients can throw away their dentures, stop hiding behind their smile and eat well without thinking about it.

PANNONIA BIO ZRT.

The Pannonia Bio refinery processes over 1.1 million tons of feed corn annually, making it a key operator in the Hungarian maize market. Located near Dunaföldvár in Tolna County, it is the largest ethanol plant in Europe and one of the most efficient in the world. It produces 350,000 tons of animal feed, 500 million liters of bioethanol and 15 000 tons of corn oil annually. The biorefinery is a nursery for new nutrition, health, biochemical and fuel bioproducts. Pannonia bio contributes nearly 500 million euro to Hungary's GDP, supports 2,000 jobs and is a subsidiary of Ethanol Europe Renewables Limited, an Irish agribusiness group.

SMILING HOSPITAL FOUNDATION

The Smiling Hospital Foundation's mission is to uplift spirits of sick children in hospitals as a contributing factor to speed up the recovery process. This goal is being achieved by entertainment programs with the help of all types of artists and a large number of volunteers. Secondly, to help making the environment of children in hospitals more pleasant by painting the rooms and corridors with colorful drawings.

WOODBROOK GROUP, HUNGARY

Woodbrook Group is a leading international financial services company with offices in Budapest, Bucharest, Moscow, Bratislava, Marbella, Geneva, Warsaw and Ho Chi Minh City. The company, established by Irishman Michael Doherty five years ago, provides a wide variety of specialist financial services for corporate and individual clients, from individual wealth management, pension planning and children's education fee planning to company formation, fund management, cross border structuring and QROPS (Qualified Recognised Overseas Pension Scheme).

The rapidly-expanding company is about to expand its operations with the opening of new bases in the Middle East and Latin America and is about to make a public offering on the Nasdaq Stock Market. Unlike most financial advisory companies, Woodbrook is fully independent and not owned by any financial institution or life insurance company.
