Embassy of Ireland
Veľvyslanectvo Írska

IRELAND SLOVAK REPUBLIC

BUSINESS DIRECTORY

Trade between Ireland and Slovakia is strong and growing. In recent years, Irish exports to the Slovak Republic have been growing by approximately 11% per year, and Slovak exports to Ireland have grown in the same period. In 2017, two-way trade was worth an estimated €381 million.

There is a steady increase in the numbers of Irish companies interested in this attractive market, with some also using Slovakia as a base to expand links in the region. Slovak-Irish people-to-people links are strong, helped by the significant numbers of Slovak citizens who have lived and worked in Ireland. Slovakia's geographic location, and proximity to transport hubs in a number of neighbouring countries, makes it an attractive market for Irish investors.

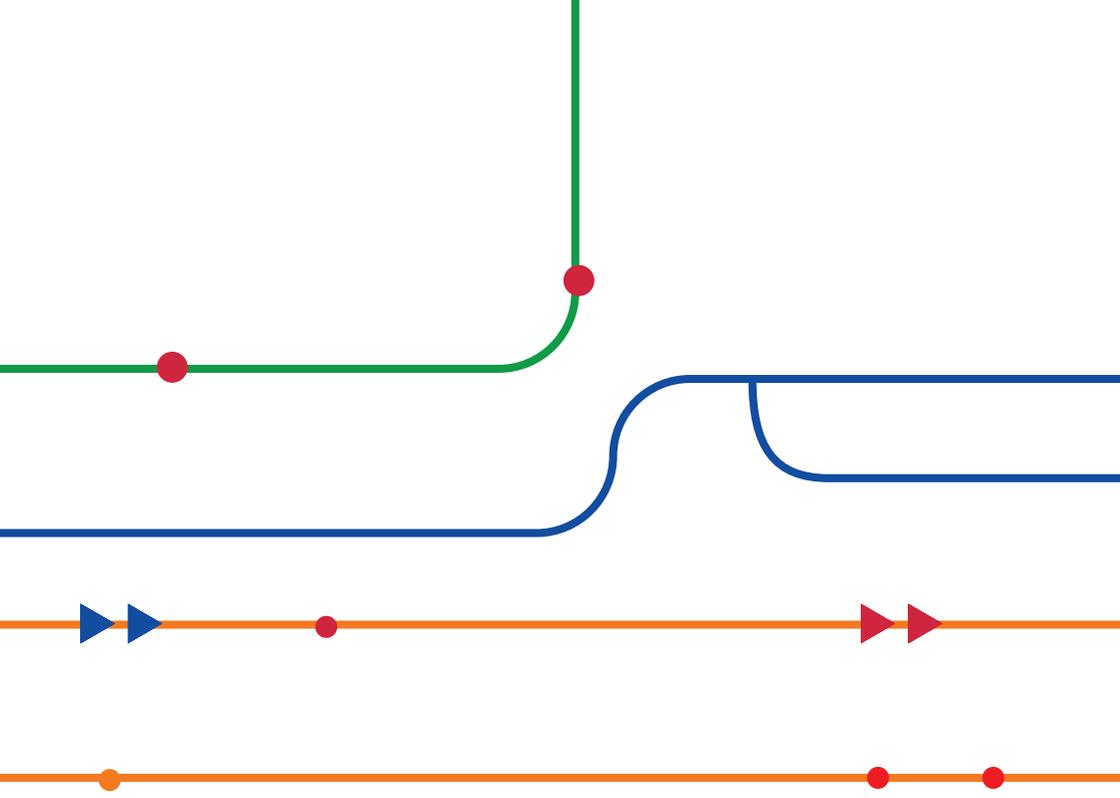

I am confident the Irish-Slovak Business Directory will be a useful resource for any Irish businesses interested in the Slovak market, as well as Slovak companies looking for partners in the region, and in Ireland. Published for the first time in 2018, it provides an overview of the many businesses and entrepreneurs who make up this vibrant and dynamic relationship. I hope it will contribute to the visibility of the Irish business presence in the Slovak Republic. I would encourage Irish businesses to contact the Embassy. We are also a focal point for the Irish community in Slovakia, and support a range of cultural, sporting and social activities.

I am delighted the Embassy has come together with the Irish Government agencies, Enterprise Ireland and Bord Bia, to publish this directory. Together, we are committed to supporting Irish companies and entrepreneurs and to growing the Irish-Slovak business relationship.

EMBASSY OF IRELAND

Relations between Ireland and the Slovak Republic are excellent. Ireland and Slovakia work closely together as partners in the European Union, share interests in common, and enjoy growing economic, cultural, and people-to-people ties. There is a flourishing two-way trade relationship, worth 381 million in 2017.

Located in central Bratislava, the mission of the Embassy of Ireland is to grow and deepen bilateral relations with the Slovak Republic in all areas, including economy and trade. The Embassy works closely with Enterprise Ireland, the Irish Government agency responsible for the development and growth of Irish enterprises in world markets, and Bord Bia, the Irish Food Board. The Embassy works with these and other Irish state agencies to promote Ireland's trade and investment objectives, promote Irish exports, food, culture, heritage and traditions. The Embassy cooperates with the agencies to support Irish companies looking to enter or expand in the Slovak market, and to implement the Government of Ireland's strategy, Ireland Connected: Trading and Investing in a Dynamic World.

You can keep up to date on the activities of the Embassy on our website, by writing to bratislava@dfa.ie to ask to be added to our mailing list, or by following us on twitter.

BORD BIA

Bord Bia (The Irish Food Board) is the Irish government agency charged with the promotion, trade development and marketing of the Irish food, drink and horticulture industry. Bord Bia's mission is to drive through market insight and, in partnership with industry, the commercial success of a world class Irish food, drink and horticulture industry.

Bord Bia works in partnership with industry to increase the sales and exports of Irish food, drink and horticulture by developing long-term relationships between Irish companies and trade buyers. Bord Bia operates programmes to develop and foster contact between buyers and Irish companies, including participation at international trade exhibitions, and co-coordinating inward buying visits.

Bord Bia has its Head Office in Dublin and thirteen strategically located offices in key export markets. The offices are located in Amsterdam, Dubai, Frankfurt, London, Madrid, Milan, Moscow, New York, Paris, Singapore, Stockholm, Warsaw and Shanghai.

Bord Bia also coordinates national initiatives such as the Quality Assurance Schemes operating at farm and factory level and Origin Green, a sustainability programme for Ireland's food and drink industry.

ENTERPRISE IRELAND

Enterprise Ireland's priority is the achievement of export sales growth from Irish-owned companies.

All our services are geared toward helping Irish companies win international sales.

Our range of services is extensive, from funding, to making introductions in key international markets. For companies wishing to set up in Slovakia, Enterprise Ireland provides introductions to specialist expertise such as legal, recruitment, public relations, taxation or access to translation services.

CONTACT

Ladislav Müller, Director

The image features a white background with several abstract, colorful lines and dots. A green line starts from the left, moves horizontally, then turns 90 degrees upwards and then right. A blue line starts from the left, moves horizontally, then curves upwards and then right. An orange line starts from the left, moves horizontally, then curves upwards and then right. A red line starts from the left, moves horizontally, then curves upwards and then right. There are several dots in various colors (red, orange, blue) placed at various points along these lines. The text 'MARKET OVERVIEW' is centered in the middle of the image in a bold, blue, sans-serif font.

MARKET OVERVIEW

Open Economy with Global Investments

According to the OECD (www.oecd.org), Slovakia had the second highest share of trade in goods and services on its GDP in the EU in 2016, just behind Ireland. With its central geographic location, educated workforce and favourable business environment, Slovakia attracted many foreign investors, especially in automotive, electronics and service sectors (www.sario.sk).

Eurozone

Slovakia was the first country in Central Europe that introduced the single currency in 2009. Thanks to the adoption of the Euro, companies are now using Slovakia as a hub of their sales functions or as a springboard for business expansion in the region.

High Growth, Low Debt

Slovak GDP increased by 3.4% in 2017 and OECD estimates the growth to accelerate to 4.05% in 2018 and 4.53% 2019. Slovakia has one of the lowest general government debt-to-GDP ratios in the EU and also low levels of total household debt (measured as a percentage of net disposable income, OECD).

Opportunities in Automotive Industry

Slovakia is the largest producer of cars per capita in the world and 7th largest in EU overall. Jaguar Land Rover invested into a new facility in Slovakia and will manufacture alongside VW, PSA and Kia. There are a number of Tier 1 & 2 automotive suppliers around Slovakia that are always looking for innovation and new business partners.

Opportunities in Business Support Centres

Slovakia hosts one of the most important clusters of Business Service Centres in Central Europe. More than 60 centres now employ over 35,000 people. Companies such as IBM, Dell, AT&T or T-Systems are always looking for solutions that add value or save costs of their HR, financial or sales functions.

Easy Access

There are daily direct flights from Dublin to Bratislava. A very good road and railway network plus an excellent public transport system can get you anywhere around Slovakia. Bratislava is a very convenient entry point to central Europe due to its location which lies near the Slovak border with Austria, Hungary and the Czech Republic.

Business Environment in Slovakia

Slovak commercial law provides various options for the structure of business entities in Slovakia, all of which (excluding trade business) require registration with the relevant Commercial Register:

- Trade Business;
- General or Limited Partnership;
- Co-operative;
- Limited Liability Company;
- Simple Joint-Stock Company and Joint-Stock Company;
- Enterprise or Organizational branch of a foreign company;
- European Company, European Cooperative Society and European Economic Interest Group.

Generally, foreigners can conduct business in Slovakia under the same conditions and to the same extent as Slovak citizens.

Foreigners can therefore establish a Slovak legal entity and can become a sole partner or a member/shareholder of any legal entity.

SOURCE

KPMG Slovakia,
www.kpmg.sk

Legal entities that are seated in Slovakia or which place of effective management is seated in Slovakia are generally regarded as tax resident and liable to pay Slovak corporate income tax. A taxpayer should register with the tax authorities by the end of the month following the month in which permission to conduct business in Slovakia was obtained. The Slovak tax system comprises of the following taxes:

- Income taxes (personal income tax, corporate income tax);
- Value added tax (VAT);
- Excise duties;
- Motor vehicle tax;
- Municipal taxes (including real estate tax);
- Special levy for regulated entities;
- Bank tax.

Inheritance and gift tax was abolished with effect from January 1, 2004. Real estate transfer tax was abolished with effect from January 1, 2005.

The background features several abstract, stylized lines in green, blue, orange, and red. These lines are mostly horizontal but include various curves and bends. Small circular dots in the same color palette are placed at various points along the lines. Some lines have arrowheads pointing to the right, suggesting a flow or direction. The overall aesthetic is clean, modern, and technical.
