STAGE 1 Guidance Note

Please read through this document carefully and in its entirety prior to completing the application form.

1 The benefits of studying in Ireland

Ireland is an English-speaking European country which has been a member of the European Union since 1973. Situated on the Western edge of Europe, Ireland is a relatively small, though highly connected, island nation with a population of five million people.

Ireland is an advanced knowledge economy whose focus on education has been at the core to government policy since the country gained independence from Britain in 1922. As a result, Ireland boasts one of the most highly educated populations in the world, ranking 4th globally for the percentage of our population who have completed tertiary education with 56% of 24-35 years olds having attained at least an undergraduate degree. In this regard, Ireland lies ahead of all other English speaking countries in the world, with the exception of Canada, and has the second most educated population in Europe.

Ireland is an open economy and our location, combined with our highly educated workforce, has served to attract significant inward investment over recent decades. Today, Ireland is a leader in the technology, biotechnology and pharmaceutical sectors, with most leading international companies choosing Ireland for the location of their European headquarters. With many of the world's biggest and best companies locating their key strategic research facilities here, Ireland offers an unparalleled ecosystem that sees academic researchers working hand-in-hand with small home-grown and start-up companies in partnership with some of the most powerful multinationals on the planet, through shared research projects and programmes, often supported by the Irish government.

Ireland's consciousness of its unique historical legacy has resulted in a higher education system which offers globally recognised expertise in a broad spread of programmes around development, conflict studies, gender, diversity and human rights. Ireland's universities lead the world in terms of their social and economic impact. The 2019 Times Higher Education university impact rankings (based around adherence to the United Nations' Sustainable Development Goals (SDGs)) ranked Ireland second in the world due to their strength in promoting good health and well-being, sustainable cities and communities, climate action and partnerships for the SDGs.

Studying at postgraduate level in Ireland offers a unique opportunity to join programmes that are driving innovation and changing lives worldwide.

2 Ireland Fellows Programme - Africa

The Ireland Fellows Programme enables early to mid-career professionals from eligible countries, with leadership potential, to benefit from a prestigious, world-class, quality education contributing to capacity building. It offers selected students the opportunity to undertake a fully funded one-year master's level programme at a higher education institution (HEI) in Ireland. The award covers programme fees, flights, accommodation and living costs. Eligible master's level programmes in Ireland commence in August or September each year and, depending on the programme, will run for between 10 and 16 months. The Ireland Fellows Programme promotes gender equality, equal opportunity, and welcomes diversity.

The aims of the Programme are to nurture future leaders; to develop in-country capacity to achieve national SDG goals; and to build positive relationships with Ireland.

The Programme is intended to support graduates on their return home, through the skills they develop, to contribute to capacity building in their home countries and to become one of the next generation of leaders in their respective fields. It is also envisaged that they will contribute to building enduring positive personal and professional relationships with Ireland, promoting institutional linkages.

The Ireland Fellows Programme is fully funded by the Irish Government and is offered under the auspices of the Department of Foreign Affairs (DFA). The Programme aligns with the Irish Government's commitments under [Global Ireland](#) and the national implementation plan for the [Sustainable Development Goals \(SDGs\)](#), [The Global Island: Ireland's Foreign Policy for a Changing World](#), [A Better World: Ireland's Policy for International Development](#), and [Ireland's International Education Strategy](#). The programme is managed by the relevant Embassy responsible for eligible countries. Programme implementation in Ireland is supported by the Irish Council for International Students (ICOS).

Q1. Personal information:

You will be asked to provide your name, gender, nationality, country of residence, date of birth and contact details.

Q2. Education:

This section requests information on your undergraduate qualification, the institution attended and the dates of study. This qualification must be accredited and have been awarded by a government-recognised university or college. It must have been awarded by **2010** or later (i.e. within the last 12 years).

Preferably your degree should be at first class honour or higher-second class level. A lower second-class degree will be considered if the applicant has sufficient directly relevant work experience. Please include a scanned copy of your undergraduate degree award certificate **and, if available**, your undergraduate degree academic transcript indicating your final grade.

English language proficiency:

Irish higher education institutions require a high standard of English language proficiency and this must be formally certified, normally through the International English Language Test (IELTS-www.IELTS.org).

IELTS examines competency in the English language across reading, writing, speaking and listening and is necessary for admission to all Irish HEIs – there are no exceptions. Most HEIs require a score of 6.5 overall, but some require a higher overall score, or specific scores within each band. The Ireland Fellows Programme Directory of Eligible Programmes will indicate the levels required for each programme. It is the applicant's responsibility to be aware of the IELTS score required for all the programmes selected.

You can apply through stage 1 of this process without having completed your IELTS test; however, you must have noted the IELTS score required for your selected programmes and considered whether you can achieve this grade.

If you have completed an IELTS test, provide full details as requested under question 2 of the application form and note that the test is only valid if completed within **24 months of the proposed commencement of your studies in Ireland (i.e. September 2022)**.

If you already have an English language test result from an exam other than the IELTS exam, this may also be accepted. Please include details as requested.

Q3. Work experience:

All applicants must have a minimum amount of work experience that is **relevant to their proposed programme(s) of study**, but the minimum requirement varies by country. Please consult the table below:

Min. 2 years' RELEVANT work experience required	Min. 3 years' RELEVANT work experience required	
<ul style="list-style-type: none"> • Uganda • Rwanda • Kenya • Zimbabwe • Sierra Leone • Tanzania 	<ul style="list-style-type: none"> • Djibouti • Eritrea • Ethiopia • Lesotho • Liberia • Malawi 	<ul style="list-style-type: none"> • Mozambique • Somalia • South Sudan • Sudan • Zambia

You will be asked to name your employing organisation, provide your job title and indicate (in years and months) how long you have worked with this organisation. You are also asked to provide details of previous work experience you may have. **This may include internships** - 1 year working as an intern will be considered equivalent to 6 months' work experience when evaluating applications. **If you are currently unemployed, please include your previous work experience here.**

You are asked to provide brief details of any leadership positions you hold, or have held in the past. Leadership roles can include those held in work, in volunteer work, within social activism, in community organisations, as class/work representative, or college roles.

Q4. Master's programme choices:

Using the Ireland Fellows Programme Directory of Eligible Programmes, you are asked to list details of the three master's programmes you would like to pursue in Ireland, ranked in order of choice (1, 2, 3). To maximise your chances of receiving a course place offer should you be selected to go forward as a Candidate, it is strongly recommended that the three programmes are in three different Higher Education Institutions (HEIs), where available. In choosing these programmes, please take account of their relevance to your career aspirations and to achieving the SDGs in your country.

Please make sure that you have a clear understanding of the academic and English language proficiencies required for all programmes chosen. Please also ensure you have the minimum amount of work experience that is **directly relevant** to these programmes (see Q3). If you are selected to go forward as a Candidate and are invited to make programme applications to Higher Education Institutions (HEIs) in Ireland, the HEIs will consider your academic and work experience as part of your application, so it is important to keep this in mind when selecting the three programmes.

Q5. Why do you wish to be considered for a Fellowship in Ireland?

The final question provides you with an opportunity to show how your goals align with those of the Ireland Fellows Programme, which are to nurture future leaders; to develop in-country capacity to achieve national SDG goals; and to build positive relationships with Ireland.

Your response under the following three headings (no more than 80 words each) should explain your motivation for applying for this Fellowship:

- How the specific programmes of study in Ireland which you have chosen would assist you in your career aspirations;
- How they would help you work towards achieving your country's national SDG goals;
- How you would propose to develop links between your country and Ireland.

You are expected to demonstrate some knowledge of Ireland and Irish higher education.

Declaration

***** FOR INFORMATION – STAGE 3 APPLICATION PROCESS*****

If, following assessment of Stage 2 of the application process, you are invited to Stage 3, please note the following:

- Stage 3 Applicants who do not yet have the English language certification required for their master's programmes in Ireland will be provided with a coupon in order to take the Duolingo English language test. This is an online test that can be taken at home. In some cases the Embassy of Ireland may provide an alternative English language test for applicants;
- Stage 3 Applicants who either already have the English language certification required for their chosen master's programmes in Ireland, or who achieve a score of 110 on Duolingo, will be invited for interview. Interviews will take place in October, November and December 2021, and may take place either in person or remotely by video or telephone conference;
- Applicants who are invited to interview will be required to provide certified copies of their documents. The submitted documents must bear the official stamp and signature of the certifying authority. Where original documents are not in English, certified true copies of official English translations should be provided. **Photocopies of certified documents will not be accepted;**
- Applicants shortlisted following interview who do not yet have the English language certification required for their master's programmes in Ireland will be invited to take the IELTS English Test, or in some cases another accepted English language test, and will need to pass it to the standard required for their selected programmes. If an applicant does not achieve the minimum English language requirements for their chosen courses, their Fellowship application will have concluded.

Applicants shortlisted following interview

Applicants shortlisted following interview, who have the English language certification required for their master's programmes in Ireland, will be notified whether they have been selected to go forward to the next stage of the process as either a Candidate or a Reserve Candidate.

Applicants selected to go forward to the next stage of the process as a **Candidate** will be notified that their application will be forwarded to the management agency for the Ireland Fellows Programme. Once their documentation is verified and in order, they will be provided with information on making programme applications to Higher Education Institutions (HEIs) in spring 2022. Applications should not be made to HEIs in Ireland until invited to do so. Application fees will be paid by the Department of Foreign Affairs for shortlisted Candidates.

Those applicants placed on a **reserve list of candidates** will be contacted if a place becomes available, and at that point will be invited to commence applications to their chosen programmes of study in Ireland.

When Candidates are invited to apply to HEIs in Ireland, priority will be given to their choices in the order they have listed them in their application. Candidates will be invited to apply to **two** programmes, normally their top ranked programme and either their second or third choice. In the case of more than one offer being received from their programme choices, all candidates will be

required, for logistical reasons, to accept the programme which they have ranked highest within their application.

Programme place offers are entirely at the discretion of the HEIs in Ireland. If a Candidate does not receive an offer from either of their two HEI applications, their Fellowship application will have concluded.

Candidates who receive a programme place offer will go forward to the last stage of the application process, which is the confirmation of the award of Fellowship places in June/early July 2022. The academic year in Ireland is from autumn 2022 to summer/autumn 2023.

Please note that a medical form is required for successful Fellows before travel to Ireland so that, where appropriate, we can discuss with them any necessary supports.
